

Curriculum Vitae
of

JOHN W. LIEDEL, M.D.
Developmental-Behavioral Pediatrician

EDUCATIONAL AND PROFESSIONAL EXPERIENCE:

- Developmental-Behavioral Pediatrician
Children's Program
7707 SW Capitol Hwy.
Portland, Oregon 97219
August 1987 - Present

The Children's Program is a multidiscipline outpatient clinic, serving children from infancy through school age with developmental disabilities, learning disorders, and behavior problems.

Clinical duties include medical and developmental diagnostics and treatment, education, and family counseling. Clinical problems include developmental delays and disabilities, mental retardation, autism, speech and language disorders, learning disabilities, attention deficit and hyperactivity, encopresis, and enuresis. Some of this work is done on a contractual basis for various school districts and departments of special education. The Children's Program is a fee-for-service specialty clinic which is known for its flexibility and innovative approach to service delivery.

- Developmental-Behavioral Pediatrician
Autism Clinic
Child Developmental and Rehabilitation Center
Doernbecher Children's Hospital
Oregon Health and Sciences University
Portland, Oregon 97239
January 2004 – Present

Clinical evaluation of preschool-aged children suspected of having Autism Spectrum Disorders in this multidiscipline clinic. Clinical duties include evaluation of a broad range of developmental disorders in children, and include teaching pediatrics residents and medical students. This is a transdisciplinary, diagnosis-by-consensus clinic which involves working together with psychologists, speech and language pathologists, audiologists, and occupational therapists.

- Clinical Instructor Department of Pediatrics
Oregon Health and Sciences University
Portland, OR 97219
May 200 – Present

For the past seven years I have been having pediatrics residents join me one afternoon a week in my private practice at the Children's Program for a tutorial, one-on-one, teaching and learning experience.

- Course in Child and Adolescent Psychopharmacology
Harvard Medical School
Massachusetts General Hospital.
March 1998.

This is an intensive course on the use of psychotropic medication in children and adolescents, including a review of all relevant medical research and recommended treatment protocols.

- Developmental-Behavioral Pediatrician
Children's Program, formerly of
Good Samaritan Hospital and Medical Center
Portland, Oregon
January 1980 - August 1987

The program established itself independent of the hospital in August 1987.

- Pediatrics Consultant
Multnomah County Education Service District.
1988-1999

Serving on a multidiscipline diagnostic team seeing referrals from local schools to special educational program of county school system.

- Developmental Pediatrician
Developmental Disabilities Clinic
Kaiser-Permanente Medical Program
Portland, Oregon
August 1982 - July 1983

Medical staffing of this multidiscipline child development clinic of a large medical care program in the health maintenance organization model.

- Developmental Pediatrician
Children's Neuropsychiatric Unit
Good Samaritan Hospital
January 1980 - July 1981

This was an inpatient program for children with complex neurological and psychiatric disorders. The position included working together with Pediatric Neurologists and Child Psychiatrists, and involved familiarity with the use of EEG Video Telemetry.

- Senior Registrar in Developmental Paediatrics
Queen Elizabeth Hospital for Children
The Hospitals for Sick Children, Great Ormond Street
London, England
October 1978 - October 1979

Experience as a Paediatrician involved in the care of children with developmental disabilities in a large London children's hospital; both inpatient and outpatient care, consisting of ward consultations and multidiscipline approach to evaluations and management. Primary emphasis on neurologic disease, seizure disorders, mental retardation, cerebral palsy, spina bifida, learning and behavior disabilities, visual and hearing impairments.

- Senior Registrar to Paediatrics Consultant to Moorfield's Eye Hospital
London, England
October 1978 - October 1979

Served as Senior Registrar to consultant to children's services at this large Ophthalmic Hospital. This consisted of aspects of Medical Genetics, Paediatric Neurology, family counseling, educational planning, and developmental assessment and early intervention for infants and children with severe visual impairments.

- Course in Paediatric Neurology
Institute of Child Health
London, England
April 1979

Comprehensive two-week post-graduate course covering all aspects of Paediatric Neurology, including both didactic and clinical material.

- Course in Developmental Assessment
Newcomen Child Development Center
The Guy's Hospital
London, England
March 1979

One-week course for physicians, covering approaches to developmental assessment of infants and preschool-age children, including techniques of hearing and vision assessment. Both didactic and clinical materials presented.

- Fellow in Child Development
Crippled Children's Division
Child Development and Rehabilitation Center
Oregon Health Sciences University
Portland, Oregon
July 1976 - July 1978

Experience as Pediatrician in a multidiscipline clinical setting, serving children with developmental disabilities and their families. Included working with children with cerebral palsy, meningomyelocele, mental retardation, learning disabilities, neurologic and muscular diseases, behavioral and psychiatric disorders, language and hearing disorders, and developmental delay. Included clinical teaching of residents and medical students and lecturing on related topics at the Center, at meetings and at local universities.

Also served as consultant to a local preschool for children with developmental disabilities and consultant to state Vocational Rehabilitation Division.

- Graduate Course in Mental Retardation
Western Psychiatric Institute and Clinics
University of Pittsburgh Medical School
Pittsburgh, Pennsylvania
February 1977

A comprehensive two-week course for physicians, dealing with many facets of mental retardation.

- Resident in Pediatrics
Department of Pediatrics
Oregon Health Sciences University
Portland, Oregon
July 1974 - July 1976

General Pediatrics Residency including Pediatrics Internship, consisting of clinical experience in inpatient and outpatient Pediatrics, Pediatric and Neonatal Intensive Care Units, and Emergency Room service. Electives in Community Public Health Program and Child Psychiatry.

- Doctor of Medicine
The Ohio State University
Columbus, Ohio
June 1974
